## Creating a New Teacher Log-In

Go to <https://www.pearsonsuccessnet.com/>.

For a teacher that is new to the school, click on register:

The screenshot shows the Pearson SuccessNet login page. A red box with the text "New Users Click on Register" and a red arrow points to the "Register" button. The page includes a login form with fields for "User name:" and "Password:", each with a "Forgot" link. Below the form is a "Log in" button. To the right of the form, there is a "Get support." section with links for "email", "phone", and "live chat". Below that is a "Notices" section with links for "myPearsonTraining.com" and "Getting Started with Pearson SuccessNet". The footer contains the Pearson logo and copyright information.

**Pearson SuccessNet**  
Your Personalized Path

## Building a Class and Adding Students Already in the Database to It

Go to <https://www.pearsonsuccessnet.com/>.

Enter your user name and password in the empty spaces and click log in:

The login page features the Pearson SuccessNet logo at the top, followed by the tagline "Your Personalized Path to Classroom Success". Below this, instructions state: "To log in, enter your user name and password and click on the log in button below. The user name and password fields are case sensitive." There are two input fields: "User name:" and "Password:". A red box with arrows pointing to both fields contains the text "Enter in your user name and password in these spaces". Below the fields are "Log in" and "Register" buttons. At the bottom, it says "Assessments Powered by Success Tracker™".

To build a new class, scroll over the classes tab and then select build new classes:

The dashboard shows a navigation bar with tabs: Home, Content, Planning, **Classes**, and Reports. Below the navigation bar are links for "Manage Classes" and "Build New Classes". A red box with arrows pointing to the "Classes" tab and the "Build New Classes" link contains the text "Scroll over the classes tab and then select build new classes". The main content area has a header "Select your program below to begin" with a "TEXAS" banner. Below this are sections for "My Teacher Resources" (showing "Leveled Readers"), "My Classes and Groups" (with a "Success Tracker™" link), and "Additional Resources" (listing support phone number, website, and lesson planner). A "Messages" section is at the bottom right.

Name your class and select every textbook in the list even if you do not teach bilingual or Spanish students and then click save:

**Enter Class/Group Details**

**Dear Parents of Student, Example :**  
We are very excited to announce the addition of Pearson SuccessNet to our educational curriculum here at GREAT OAKS ELEMENTARY SCHOOL. Pearson SuccessNet offers you the opportunity to look inside your child's day-to-day learning.

**How to get started? It's as easy as 123!**  
Success at school can be a shared learning experience!  
As a partner helping your child make the most of learning, Pearson SuccessNet offers the right tools for you and your child. It all begins with a simple login at the web site.

**How to access the Web site:**

1. Access your Internet browser -- Internet Explorer v6.0 (PC) or Safari v2.0 (MacOSX) and high-speed connection recommended.
2. Enter the URL (site address) -- **<http://www.pearsonsuccessnet.com>**
3. Then, use the following information to get started in Mr. Weiler's Example\_Class classroom:  

**Your child's user name: 128123456**  
**Your child's password: 123456**  
*Note: User name and password are case sensitive*
4. Congratulations! You should see your home page.

You will be amazed at how motivated and excited your child will be to share in the interactive learning experiences while studying at home. Watch as your child "teaches" you how to access the resources we utilize in the classroom.

Sincerely yours,  
Erik Weiler

P.S.: If you ever run into technical difficulties, there is a Pearson SuccessNet online help connection. You can reach them at 1-800-234-5832.

**Username and Password**

## How to View and Assign Lessons for the Math Textbook

To create a lesson, go to the home page and click on the **Premium** button alongside the envision Math textbook cover or scroll over the **content** tab and select **table of contents**:

The screenshot shows the Pearson SuccessNet website. At the top, there is a navigation bar with tabs: Home, Content, Planning, Classes, and Reports. Below this, there is a banner for "TEXAS" with the text "Select your program below to begin". On the left, there are sections for "My Teacher Resources" and "My Classes and Groups". In the center, there is a "Success Tracker" section with a "Manage Classes" button. On the right, there is an "Additional Resources" section with links to "Support", "myPearsonTraining.com", "Scott Foresman home", and "Online Lesson Planner". A red arrow points from the "Content" tab to the "Table of Contents" link. Another red arrow points from the "Premium" button (located next to the "enVisionMATH Premium TX G3" textbook cover) to a text box. The text box contains the following text: "To assign lessons from your textbook you can either click on the premium button which can be located alongside the enVision Math Textbook from the home page or you can scroll over the content tab from any page and select the table of contents option."

Select the topic you are covering in your class from the table of contents page:

The screenshot shows the "Table of Contents" page. At the top, there is a header with the text "Table of Contents" and a dropdown menu for "English Content". Below this, there is a table with three columns: "Topic 1", "Topic 2", and "Topic 3". Each column contains a large image and a title. Red arrows point from the text box to the three topics. The text box contains the following text: "Select the topic you are covering from the table of contents".

Topic 1	Topic 2	Topic 3
 Numeration	 Addition Number Sense	 Adding Whole Numbers to Solve Problems

Before you make an assignment you might want to see what information the topic is covering to make sure that it is appropriate for your class. On the left side of the page you will notice a table of contents that will allow you to view specific lessons on that topic. On the right side you will notice a navigation bar that allows you to view the information pertaining to each specific lesson. This is where you will want to verify the assignment is appropriate for your class:

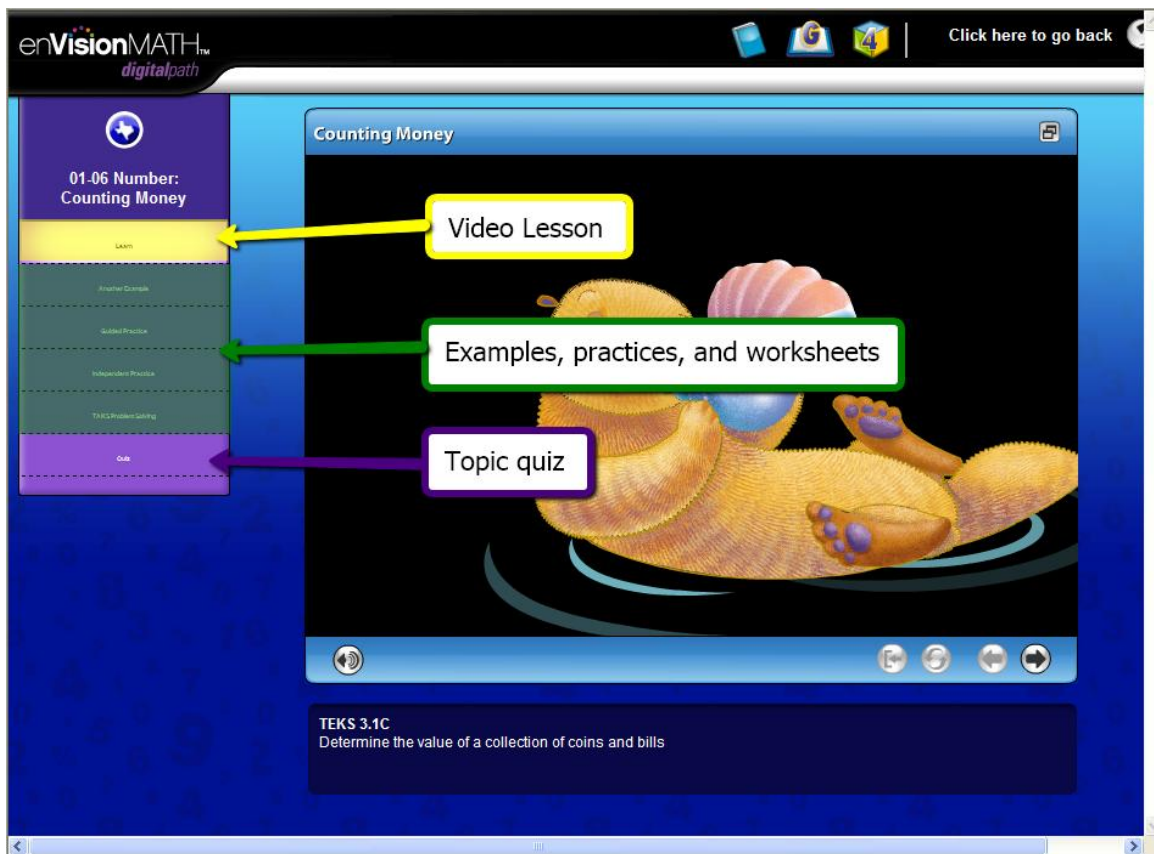

The screenshot shows the VisionMATH interface. At the top is a black banner with the "VisionMATH" logo. Below the banner, on the left, is a yellow "Table of Contents" sidebar. It lists lessons from "Topic 1 > Lesson". Lesson "01-06 Number: Counting Money" is highlighted with a green arrow pointing to it from a yellow callout box that says "Select a more specific lesson from the table of contents". In the center, there is a large blue circle with the text "Lesson 1-6" and a "View" button. To the right of this is a "Description" box. On the far right, there is a navigation bar with buttons: "View", "Assign", "Information", "Teacher's Edition", and "Add to Planner". An orange callout box points to this bar with the text "Navigation bar for each lesson".

The first item you will want to use on the navigation bar is the **information** button to see what specific TEKS the lesson covers:

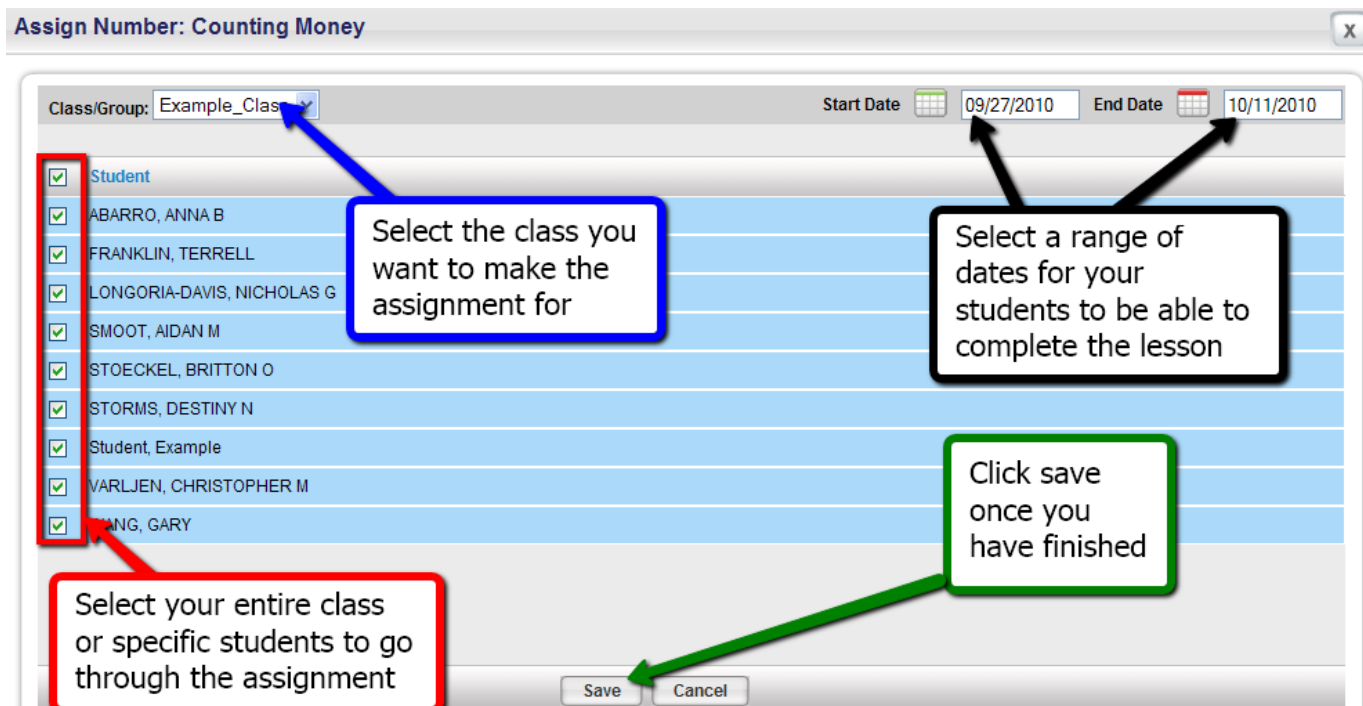

The screenshot shows the "Information" window for Lesson 01-06 Number: Counting Money. The window has a title bar with "Information" and a close button. Below the title bar is a header with a small icon of a dollar bill and the lesson title "01-06 Number: Counting Money". The main content area contains the following information:

- Description:** Find the value of money, including 5 dollar and 1 dollar bills, half dollars, quarters, dimes, nickels, and pennies.
- TEKS 3.1C:** Determine the value of a collection of coins and bills
- Vocabulary:** símbolo de dólar, punto decimal, dollar sign, decimal point
- Keywords:** billetes, bills, centavos, cents, coins, count money, cuenta dinero, decimal points, dinero, dollar signs, dollars, dólares, monedas, money, number and operations, numeración, numeration, números y operaciones, puntos decimales, símbolos de dólar
- Aligned Standards:**
  - Texas TEKS, Grade 3
  - 3.15.B Underlying processes and mathematical tools. The student communicates about Grade 3 mathematics using informal language. The student is expected to relate informal language to mathematical language and symbols.
  - 3.1.C Number, operation, and quantitative reasoning. The student uses place value to communicate about increasingly large whole numbers in verbal and written form, including money. The student is expected to determine the value of a collection of coins and bills.

After you have verified that the lesson covers the TEKS you would like to go over with your class go to the navigation bar and click on **view** to see the content you can watch with your entire class or assign to your students to look at by themselves. Each topic has a video lesson, practice pages or worksheets from the book, and quizzes:

On the navigation bar, you can click on **assign** to give this lesson to your class or students in your class. Here you can customize which class you are giving the assignment to, which students are supposed to receive the assignment, and what dates you want to make the assignment available to them. Click save when you have finished:

## How to View and Modify Assignments You Have Created

Scroll over the **planning** tab and select **assignments** on the home menu bar.

The screenshot shows the Pearson SuccessNet home page. At the top, there is a navigation bar with tabs: Home, Content, Planning, Classes, and Reports. Below this, there are links for Lesson Planner, Assignments, and My Tests. A red box highlights the 'Assignments' link, with two red arrows pointing to it from the 'Planning' tab and the 'Assignments' link. A text box with a red border contains the text: 'Scroll over the planning tab and select assignments'.

## How to Create and Assign a Custom Test

From the home menu, scroll over the **planning** tab and select **my tests**:

The screenshot shows the Pearson SuccessNet home page. At the top, there is a navigation bar with tabs: Home, Content, Planning, Classes, and Reports. Below this, there is a sub-navigation bar with links: Lesson Planner, Assignments, and My Tests. A red arrow points from the 'Planning' tab to the 'My Tests' link. Another red arrow points from a text box to the 'My Tests' link. The text box contains the instruction: 'To build a custom test for your student(s) scroll over the planning tab and select my tests'. The main content area features a large banner with a Texas state flag and the text 'Select your program below to begin'. Below the banner, there are several sections: 'My Teacher Resources' with links to Science All Grade Levels and Social Studies All Grade Levels; 'My Classes and Assignments' with links to Example\_Class and Assessment at a Glance; and 'Additional Resources' with links to Support, myPearsonTraining.com, Scott Foresman home, and Online Lesson Planner. There are also icons for Class Roster, Reports, and Assignments, and a Messages section.

Click on build new test:

The screenshot shows the Success Tracker Test List page. At the top, there is a header with the text 'Test List' and the Success Tracker logo. Below the header, there is a section for 'Select Test Bank' with a dropdown menu showing 'My Tests'. To the right of the dropdown, there is a text box with instructions: 'If you would like to add a test to this bank, click Build New Test. To copy, delete, or create a "like" test, select it first. If you would like to delete a test, click the Delete button.' A red arrow points from a text box to the 'Build new test' button. The text box contains the instruction: 'Click on build new test'. Below the instructions, there is a table with the following columns: Test name, Created, Test items based on, and Created by. The table contains one row with the following data: Test, 09/27/2010, SF Math DP 2009 TX G3 Skills, and E Weiler. There is a 'Delete' button next to the 'Created by' column.

Test name	Created	Test items based on	Created by	
Test	09/27/2010	SF Math DP 2009 TX G3 Skills	E Weiler	Delete

## How to View and Assign a Leveled-Reading Book

From the home menu bar, scroll over **content** and select the **leveled reader database**:

The screenshot shows the Pearson SuccessNet home page. At the top, there is a navigation bar with tabs: Home, Content, Planning, Classes, and Reports. Below this is a sub-bar with links: Table of Contents, Tests, Search, and Leveled Reader Database. A red arrow points from the 'Content' tab to the 'Leveled Reader Database' link. Another red arrow points from a red-bordered box containing the text 'Scroll over the content tab and select the leveled reader database' to the 'Leveled Reader Database' link. The main area of the page features a large banner with a Texas state outline and the text 'Select your program below to begin'. Below the banner are several sections: 'My Teacher Resources' with a 'Leveled Readers' link, 'My Classes and Groups' with a 'Leveled Readers' link, 'Success Tracker' with a 'Classes' link, and 'Additional Resources' with a 'Support' link. There are also icons for 'Class Roster', 'Reports', and 'Assignments'. A 'Messages' link is at the bottom right.

Select the criteria you would like to search by and click search:

The screenshot shows the 'Leveled Reader Database' search interface. At the top right, there is a 'Title Search' link. Below this is a section titled 'Choose a Level' with three radio buttons: 'Grade Level', 'Lexile™', and 'Decodable & Phonics Readers'. A green arrow points from a green-bordered box containing the text 'If you want to assign a book for an entire class you might want to search by grade level' to the 'Grade Level' radio button. To the right of these radio buttons are two more radio buttons: 'Guided Reading' and 'Rigby'. A red arrow points from a red-bordered box containing the text 'If you would like to assign a specific child a book that is more at their level, you might want to search by their DRA level' to the 'DRA™' radio button. Below these radio buttons are two dropdown menus labeled 'From:' and 'To:', both set to 'Any'. A purple arrow points from a purple-bordered box containing the text 'Choose the range of levels you would like to search' to the 'From:' dropdown menu. A 'search' button is located between the 'From:' and 'To:' dropdown menus. Below these are several input fields for search criteria: 'Topic Keyword', 'Comprehension Skill', 'Text Feature', 'Genre', 'Language', 'Content Area', 'Strand', and 'Theme'. Each field has a dropdown menu or an input box. At the bottom, there are 'Search' and 'Clear' buttons.

All of the books in the database that meet your criteria will appear. Select the title you would like to assign to your students:

## How to Use My Online Teacher Edition Book

On the navigation bar, click on **teacher's edition** to access to your entire teacher's edition textbook and then select **click here to open your book** in the window that opens. From here you can navigate your entire book, search your book for specific topics, look at the TEKS for each chapter, access the glossary that has visuals for each of the vocabulary words, and use eTools which can be your virtual manipulative for each of your lessons:

The screenshot shows the enVisionMATH Texas online teacher edition interface. The navigation bar at the top includes icons for search, glossary, eTools, and other resources. The left sidebar contains a table of contents for Topics 1 through 13. The main content area displays a lesson overview for Topic 1, Lesson 3, including a table with columns for Objective, Essential Question, Vocabulary, and Materials. Below the lesson overview is a section for Daily TEKS/TAKS Review, which includes a review master and a list of reviewed standards and exercises.

Callouts and annotations:

- Search the book with keywords**: Points to the search icon in the navigation bar.
- Glossary of items**: Points to the glossary icon in the navigation bar.
- eTools (virtual manipulatives)**: Points to the eTools icon in the navigation bar.
- Table of contents**: Points to the table of contents in the left sidebar.
- Access the state standards for each chapter**: Points to the TEKS/TAKS Review section.

Your **search** button will allow you to navigate the entire book with keywords you would like to focus on and given you the page(s) that word combination appears on:

The screenshot shows the search results for the keyword "whole numbers". The search bar at the top contains the text "whole numbers". Below the search bar, the results are displayed, showing the page number and the text of the search results. The first result is on Page 286C, and the second result is on Page 236E.

Callouts and annotations:

- Type in your keyword(s) here**: Points to the search bar.

The **State Standards** button will show you what TEKS the chapter covers:

**State Standards**

● Number and Operations

● Algebraic Thinking

● Geometry

● Measurement

● Probability and Statistics

● Problem Solving

**3.1.A Number, operation, and quantitative reasoning.**  
The student uses place value to communicate about increasingly large whole numbers in verbal and written form, including money. The student is expected to use place value to read, write (in symbols and words), and describe the value of whole numbers through 999,999.
